Tax latest statement of Mr. Gladtone's purposes as to Ireland includes in Irish Parliament with diminished epresentation at Westminster. Mr.

The measure submitted "An act to maintain the purity of silver and gold" was introduced as a substitute for all other bills on the silver question. It provides that as the faith of the United States is pledged to the of the United States is pledged to the stone's purposes as to Ireland includes an Irish Parliament with diminished representation at Westminster. Mr. Cladstone relies on his power to convince the English people that no other solution is available. He will arge that an Irish Parliament existed for centuries without causing separation, and will offer guarantees making everything look safe. A large body of kiberals will support the project.

Among the bills introduced in the House yesterday was one by Mr. Mc-Greary of Kentucky, providing that all soin now in the treasury not held for resumption purposes, be applied to the fiquidation of the public debt, and that the coinage of aiverdollars be continued as at present required by law. There can be no objection to paying continued coinage of silver is a latal blunder in legislation. The bill ought erney Grand to institute proceedings in the name of the United States not to pass.

AT THE meeting of Englishmen and Scotchmen in London a few days ago, to form a "Home Rule Association" to assist the cause of Irish home rule, Lord Ashburnham took the chair. Lord Clifton, the son of the Earl of Darnley, spoke of "that great statesman whom I am proud to call a near relation, my cousin, Mr. Parnell. The Irish leader is a cousin of Lord Darnley and Lord Clifton. The latter's words are remarkable at a time like House. the present, says Mr. Justin McCarthy, but they would have been more time ly a year or two ago, when Mr. Parnell was struggling at the head of an almost hopeless minority.

Cot. BLANTON DUNCAN, who has never been a safe guide in anything, has in some, way secured the Assoeiated Press as a vehicle by which to reach the public car with a charge in a decrease of \$10,000,000 in the reagainst the negro that is as baseless and unjust as anything well could be. . He does not give a single figure or fact to sustain his allegation that the negro has not made any progress. The facts are all of them the other way. The negro has, by availing himself of edueation, blotted out 30 per cent, of the illiteracy that weighted him when the war closed, and everywhere throughout the South has proved himself'a patient, faithful, steady worker. Col. Dunean should learn that one of the greatest reforms instituted since the war is the substitution of facts for assertion. Words have no value save as feet, they express or sustain facts—as they thread, yarn warps, or warp yarn, valued at from 25 cents to \$1 per well the truth.

When the conventions which it is empowered to call have assembled they can alter, amend or abolish the custom, but the committee can do neither. It must not usurp power nor lend itself to anything that is in conflict with the unwritten law of the Deptocratic party.

Wn have many times suggested the name of Justice Coleman for important offices but as often have been disappointed by his positive declination, his flat refusal to serve the people in any other capacity than that in which he has effected so much good for the county. But this has not discouraged us. We have deferred to the reasons that ruled the 'Squire and have surrendered cherished purposes in the public interest. We propose to-day to put him in nomination for Coroner, believing that he is the only member of the County Court who can in that position meet the wishes of all classes of the people, and the only one who can carry a large majority of the court. We respectfully suggest him to the magistrates for the place, and we urge upon him to per-mit the use of his name for urgent reasons that he cannot disregard. Mr. Coleman must serve as Coroner. The people this time insist that he shall, and will not take "no" for answer.

The officers and directors of the Young Men's Christian Association were much chagrined by the charge made by a correspondent in Sunday's APPEAL that discrimination had been made by the librarian on account of the clothes or personal appearance of visitors. The fact is, the association's rooms have for some weeks been made a rendesvous by tramps, who even went so far as to force an entrance at night and turned them into sleeping apartments. This of course could not be permitted; indeed, the chief of police gave the officers notice that it would have to be stopped, or he would interpose the power of the law to prevent it. It is difficult often to discriminate, and the two persons our correspondent complained of may have been rejected because their personal appearance was against them—because they looked like the class of characters who had made themselves objectionable. The association is engaged in a mission work, and its officers and directors are earnestly pur-suing that work, but they cannot be expected to make a lodging-house of their rooms for tramps, and if mistakes are made it is easy to have them reme-died on application to President Craig, who is a fair and a just man.
